

New England Science & Sailing

Proud Partners with New London Public Schools

NESS is a year-round extended learning program provided to students enrolled in the STEM Magnet Middle School. Students will participate in kayak adventures, sailing excursions, salt marsh exploring, hands-on experiments, robot engineering and more! NESS's STEM based curricula provides opportunities for:

Experiential Learning, Personal Growth, Inclusiveness and Stewardship.

About the Extended Learning Program:

Students participating in NESS attend one day of afterschool programming each week. Students alternate between classroom activities at BDJMS and field programs at one of our three locations:

Ocean Beach Park in New London, Greens Harbor Beach in New London and the NESS Main Campus in Stonington Borough.

STEM Adventure activities may include:

- Kayaking
- Incredible H₂O Experiments
- Sailing
- Fisheries Awareness
- Aquaculture
- Plankton Investigations
- Collecting organisms from Long Island Sound
- Tidal Creek excursions
- Snorkeling
